

ABOUT US

LEDA Group is a tech-enabled services company that provides implementations, outsourced platform management, and technical services for select technology products. LEDA brings an athlete's mindset to drive effective deployments and top-tier platform management for financial services firms. LEDA's battle-tested playbook is provided to each client, and ensures long-term success for the end-users of the technology, by prioritizing end user experience through all stages of a tech project.

LEDA Group's founding team built their careers @ Intapp, servicing the Intapp DealCloud technology. LEDA Group acts as an Intapp services partner and is focused on delivering excellent deployments of the Intapp DealCloud technology.
